### Course Statistics

**Level 1**  
12 weeks @ 1 X 1.5hr Studio, 1 X 3hr Studio. 2hr per week personal study estimated.  
Course Credit Points: 6  
Core Unit  
192 points of total program points.  
Pre-requisite: ARTS1006.  
There is a cap of 20 per studio group.

### Summary of the Course

*Body Practices: Thinking through the Body* will focus on specific practices drawn from a range of dance techniques and body practices. Techniques may include modern dance styles, contemporary dance, ballet, non-Western techniques such as Kathak, Indigenous dance styles and African. Body practices may include kinesiology, Body Weather, Feldenkrais, Alexander Technique, Yoga, Contact Improvisation, Ideokinesis and Suzuki technique. Incorporated into the studio work, an introductory seminar and ongoing lecture-demonstrations will provide the contexts (social, clinical, cultural, political and creative) in which the approaches developed, anatomical information, associated theories and practical application. Information on how body practices have fuelled choreographic invention and research will also be included in the course. Links to therapy, movement analysis and dancer-driven research will be covered. An understanding of bodily intelligence and movement as a way of thinking are implicit in these practices and will be fore-grounded.

### Extra Information

Cognition is defined as a group of mental processes that include attention, memory, producing and understanding language, learning, reasoning, problem solving, and decision-making. *Body Practices: Thinking Through the Body* aims to engage the body-mind in such a way as to activate a process of cognition with the dancing body. This studio-based course in the creative-practice stream of the Dance Major also introduces students to composition fundamentals, beginning with approaches to material generation, progressing to partner and ensemble work and working with contemporary dance technique in a class-room based format to support practice lead research and composition. This course has been developed according to principles of practice-based dance research as well as analysing the work of leading choreographers. The focus is on specific movement compositional practices, working through those that centre on innovating movement language, formal and informal systems of composition and problem solving. Incorporated into the studio work, are ongoing case studies and workshop tasks aimed at encouraging choreographic invention and dance research. There will be particular focus on the work of important choreographers, their socio-historical context, and the application of their associated theories and practices. Students are expected to develop their own lines of inquiry into dance composition and research throughout the course.

### Aims of the Course

1. *Body Practices: Thinking Through the Body* will explore specific compositional techniques and methods of inquiry that have been important in the development of contemporary dance practices.  
2. The course aims to increase students’ physical awareness, understanding, and research skills in both dance theory and practice.  
3. Apply this new knowledge to analytical and creative outcomes.

### Student Learning Outcomes

1. By the end of this course, students should be able to:  
   Understand, both conceptually and physically, key compositional practices within the context of western theatrical dance and connections to non-western body practices.
2. Apply a variety of critical lenses to corporeal awareness and knowledge, including physiological, aesthetic, cultural and political.

3. Demonstrate research skills in gathering, evaluating and communicating information about dance composition, involving independent critical thinking.

4. Apply writing skills to the translation and communication of compositional practices and knowledge.

5. Demonstrate corporeal awareness and knowledge through participation in studio-based learning and performance.

6. Apply this new knowledge to analytical and creative outcomes in other inter/disciplinary art forms and contexts.

Graduate Attributes

1. Students will develop: the skills involved in somatic enquiry, technical proficiency, anatomical alignment and improvisation, as well as strategies for developing a practice.

2. An in-depth engagement with the relevant disciplinary knowledge in its interdisciplinary context.

3. The capacity for improved compositional decision-making skills.

4. The ability to engage in independent and reflective learning.

5. Information Literacy – the skills to locate, evaluate and use relevant information.

6. An appreciation of diversity

7. The skills required for collaborative work

8. A respect for ethical practice and social responsibility

5. Rationale for the inclusion of content and teaching approach

Dance in Sydney has a specific profile that is interdisciplinary, cross-cultural and produced through independent and original movement research.

• Embedding these characteristics in the gateway subject for creative practice students in the Dance Major orients students toward self-authored movement research, as opposed to technical training, offering clear pathways to higher research in Creative Practice.

• While this course provides a foundation for this creative practice pathway, it is also open to a variety of students interested in human movement for aesthetic, educational, health or scientific purposes.

• The breadth of somatic practices across the twentieth and twenty-first centuries, which have links to physical therapy, scientific movement analysis and dancer-driven research, will be covered in the course with reference to social, clinical, cultural, political and creative influences.

• An understanding of somatic intelligence and the re-configuration of the mind-body nexus implicit in these practices will be fore-grounded.

• Translations into writing, development of critical facility and embodied knowledge are 3 areas of knowledge that shape the Dance Studies Major. In Introduction to Movement Practices, writing tasks and assessments encourage the translation of somatic processes into text.

• The integration of embodied and language-based skill sets through somatic research, written research and analysis, emphasises connections between disciplinary methods of enquiry and contemporary interdisciplinary methods.

• So this course provides students with the fundamentals of corporeal movement and composition, its analysis and opens the way to potential applications of this knowledge in various fields.

6. Teaching strategies

• Central concepts from the Gateway subject will be carried into this Core subject: movement, kinaesthetics, choreography, subjectivity, expression, presence, improvisation and technical knowledge.

• Key examples of composition techniques will be presented to introduce the large body of knowledge that constitutes choreographic practices in Dance Studies.

• A special focus on writing will facilitate the approach in the major to translating compositional practice and analysis into writing.
The studio-based seminars will develop the required knowledge through various means: practical application in a class-based format, group and solo exercises and setting writing tasks.

- Assessment tasks are aligned with writing and practice, requiring students to demonstrate compositional practice and learning as embodied knowledge, but also to reflect and expand on that knowledge through reflective writing and historical, theoretical and analytical writing.
- Students will be expected to engage in the face-to-face contact time through movement, discussion, critical analysis and observation.
- Students will be introduced to approaches to movement analysis in the aim to understand the foundations of choreographic language and terminology.

### 7 Assessments (For details see below).

### Submission of Assessment Tasks

**In order to pass this course, you must make a serious attempt at ALL assessment tasks**

All written assignments are to be submitted to Turnitin on the course Moodle site, including the 3 X 500w chosen from your journal. The journal itself must be submitted to the SAM School Office, The School Office is room 312, Level 3, Webster Building by 4pm on the due date. A School Assignment Coversheet (available outside the office) must be attached with your details clearly marked.

### Submission to Turnitin

You must submit written work in 12-point font, double spaced and paginated. Do keep an electronic and hard copy yourself. If you have any problems submitting via Turnitin, send your Convener a word.doc version of your assignment immediately, together with an explanation of the problem you are encountering. You should then follow the protocol outlined at the following site:

http://teaching.unsw.edu.au/moodle-students-help

Advice about whom to contact is given when you log in to Moodle. Such advice includes the following:

If you have trouble logging in, or you cannot see your course once you login, please contact the IT Service Centre for assistance. For enrolment and login issues contact: IT Service Centre
Email: itservicecentre@unsw.edu.au
Internal: x51333
External: (02) 9385-1333
International: +61 2 9385 1333

If you have difficulty using the Moodle environment or tools, please contact External TELT support. Moodle
Mobile is now supported on this version of Moodle. External TELT Support Email: externalteltsupport@unsw.edu.au
Internal: 53331
External: (02) 9385 3331
International: +61 2 9385 3331

Please do not send your Course Conveners a copy of your assignment unless you are unable to submit via Turnitin. Once you have submitted you will receive a receipt to confirm that you have successfully submitted. Keep this receipt as proof of the date and time that you lodged your assignment. If you do not receive such notification, you must ask your Convener, by email, to check whether your upload was successful.

Please be aware that when you submit a UNSW course assignment online, through a facility such as Turnitin etc., you are automatically acknowledging that you have understood and abided by the University requirements in respect of student academic misconduct outlined in the Student Code Policy and Student Misconduct Procedures, both of which are available at: https://my.unsw.edu.au/student/academiclife/assessment/StudentMisconduct.html

You are also declaring that the assessment item is your own work, except where acknowledged, and has not been submitted for academic credit previously in whole or in part. In addition, you are declaring that the assessor of this item may, for assessment purposes:

* provide a copy to another staff member of the University
* communicate a copy of this assessment item to a plagiarism checking service (such as Turnitin) which may then retain a copy of the assessment item on its database for the purpose of future plagiarism checking.

An assessed task is deemed late if it is submitted after the specified time and date as set out in the course Learning Management System (LMS). The late penalty is the loss of 3% of the total possible marks for the task for each day or part thereof the work is late. Lateness will include weekends and public holidays. This does not apply to a task that is assessed but no mark is awarded. Work submitted fourteen days after the due date will be marked and feedback provided but no mark will be recorded. If the work would have received a pass mark but for the lateness and the work is a compulsory course component a student will be deemed to have met that requirement. This does not apply to a task that is assessed but no mark is awarded. Work submitted twenty-one days after the due date will not be accepted for marking or feedback and will receive no mark or grade. If the assessment task is a compulsory component of the course a student will automatically fail the course.

Attendance:

Where practical, a student’s attendance will be recorded. Individual course outlines/LMS will set out the conditions under which attendance will be measured.

A student who arrives more than 15 minutes late may be penalised for non-attendance. If such a penalty is imposed, the student must be informed verbally at the end of class and advised in writing within 24 hours.

If a student experiences illness, misadventure or other occurrence that makes absence from a class/activity unavoidable, or expects to be absent from a forthcoming class/activity, they should seek permission from the Course Authority, and where applicable, should be accompanied by an original or certified copy of a medical certificate or other form of appropriate evidence.

If a Course Authority rejects a student’s request for absence from a class or activity the student must be advised in writing of the grounds for the rejection.

A student who attends less than 80% of the classes/activities and has not submitted appropriate supporting documentation to the Course Authority to explain their absence may be awarded a final grade of UF.
A student who has submitted the appropriate documentation but attends less than 66% of the classes/activities will be asked by the Course Authority to apply to discontinue the course without failure rather than be awarded a final grade of UF. The final decision as to whether a student can be withdrawn without fail is made by Student Administration and Records.

**Plagiarism**

If plagiarism is found in your work when you are in first year, your lecturer will offer you assistance to improve your academic skills. They may ask you to look at some online resources, attend the Learning Centre, or sometimes resubmit your work with the problem fixed. However more serious instances in first year, such as stealing another student’s work or paying someone to do your work, may be investigated under the Student Misconduct Procedures. Repeated plagiarism (even in first year), plagiarism after first year, or serious instances, may also be investigated under the Student Misconduct Procedures. The penalties under the procedures can include a reduction in marks, failing a course or for the most serious matters (like plagiarism in a honours thesis) even suspension from the university. The Student Misconduct Procedures are available here [www.unsw.edu.au/studentmisconductprocedures.pdf](http://www.unsw.edu.au/studentmisconductprocedures.pdf) (PDF)

</table>

**ASSESSMENT DETAIL**

| 1. Studio Journal – based on set writing tasks | 3 X 500w | 30% |

A personal portfolio of the studio-seminar process based on set writing tasks, documenting feedback and contributions, including responses to set youtube clips of relevant choreographer based on information received throughout the course.

CRICOS Provider no.: 00098G
Your writing will be informed by the approach to writing about dance in the Gateway subject, Thinking, Writing and Making Dance.

THIS TASK WILL BE OUTLINED IN DETAIL IN THE FIRST STUDIO.

<table>
<thead>
<tr>
<th>mark</th>
<th>criteria</th>
</tr>
</thead>
</table>
| HD   | • Demonstrates a highly sophisticated understanding of choreographic practices through written analysis, connecting this to the relevant historical context, and showing original thought.  
• Shows a clear logic behind the structure of the analysis and the form and development of the piece of writing. |
| D    | • Demonstrates an ability to describe choreographic practices in a historical context, applying the correct terminology.  
• Clearly communicates analysis of a choreographic practice with good use of methodological tools. |
| C    | • Demonstrates a good grasp of written English – grammar, spelling, sentence and paragraph structure, writing style, etc.  
• Covers all major aspects of choreographic practices and shows an understanding of the tools for analysis of the same. |
| P    | • Demonstrates some understanding of choreographic practices.  
• Demonstrates some grasp of the correct tools for the analysis of choreographic practices. |
| F    | • Demonstrates little or no understanding of choreographic practices.  
• Demonstrates little or no understanding of dance analysis. |

2. Research Paper – connecting one of the three techniques studied to choreography.  

You will write a 2500w research paper focusing on the choreographic techniques of one artist included in the course: William Forsythe, Anne Teresa De Keersmaeker, Meg Stuart or Pina Bausch. You must cover the following:

Identify and describe the choreographic principles evident in the practice of one of these major choreographers citing examples from their works. Include a brief analysis of the development of this choreographic practice in relation to the artist’s dance lineage and socio-historical context.

MANDATORY: Detail the methodology of the choreographic practice (aesthetic principles, key exercises, instructions) that you are able to source through both research and observation of works. Make sure you include a discussion of your own experiences with dance research in relation to your chosen choreographic practice.

The essay must contain an introduction stating which topic you will cover, clear paragraph structures and correctly formatted footnotes for quotes and references. You will be expected to undertake independent research beyond the compulsory and suggested reading lists.

This essay will demonstrate your research skills and (for Dance Majors) should incorporate key themes introduced in the Gateway subject for the Dance Studies Major, Thinking, Writing and Making Dance: improvisation, choreography, subjectivity, expression, presence, somatic intelligence and creative research.

This task forms the groundwork for your studio presentation task.
<table>
<thead>
<tr>
<th>mark</th>
<th>criteria</th>
</tr>
</thead>
</table>
| HD   | • Demonstrates a highly sophisticated understanding of an artist’s choreographic practice at the level of training, origins and creative application. Student must apply the correct methodological tools to the account of the practice, showing original thought.  
  • Shows a clear logic behind the structure of the analysis and the form and development of the piece of writing. |
| D    | • Demonstrates an ability to describe an artist’s choreographic practice, its various elements in development and/or movement quality of the artist’s work, applying dance terminology.  
  • Clearly communicates analysis of the work of the artist including their lineage and the historical context, with good use of methodological tools.  
  • Correct use of referencing/notes and inclusion of a reference list or bibliography. |
| C    | • Demonstrates a good grasp of written English – grammar, spelling, sentence and paragraph structure, writing style, etc.  
  • Covers all major aspects of an artist’s choreographic practice and shows an understanding of the correct methodological tools for analysis of their work. |
| P    | • Demonstrates some understanding of the elements of an artist’s choreographic practice.  
  • Demonstrates some grasp of the correct methodological tools for the analysis of the artist’s work |
| F    | • Demonstrates little or no understanding of the elements of an artist’s choreographic practice.  
  • Demonstrates little or no understanding of dance analysis |

| 3. Performance Presentation | 15 min presentation | 30% |

Present, both orally and physically, the findings of your compositional research that you have conducted this semester. This presentation should be the outcome of the choreographic practices you explored in class and (ideally) informed by the analysis of the major choreographer you studied for your major paper. These findings should be notated and accumulated through journaling all semester in conjunction with your physical research of compositional practices. There will be 15 minutes allocated in which you are to present your work and deliver a short talk summarising the key choreographic principles you researched, including a brief question and answer session with the audience.

Please cover:

• Details of the methodology of the compositional practice (aesthetic principles, key exercises, instructions)  
• A discussion of your own experiences with movement and dance in relation to your compositional research.  
• Cite examples of how this compositional methodology is incorporated into the work of a major choreographer.

The physical presentation should demonstrate and support the spoken sections of your presentation.
| HD | • Demonstrates a highly sophisticated understanding of compositional methodologies and their place within dance history, and applies methodological tools to your own dance research, showing original approaches to thinking through the body.  
• Shows a clear logic behind the structure of the analysis and the form and development of the presentation. |
|---|---|
| D | • Demonstrates an ability to describe and perform the various elements and movement qualities of your research, and apply dance terminology.  
• Clearly communicates analysis of the research and its historical context with good use of methodological tools.  
• Correct use of referencing/notes when citing works or ideas. |
| C | • Demonstrates a clearly presented and well structured presentation.  
• Covers all major aspects of dance research and show an understanding of the correct methodological tools for analysis of the research. |
| P | • Demonstrates some understanding of the elements of dance research.  
• Demonstrates some grasp of the correct methodological tools for the analysis of dance research. |
| F | • Demonstrates little or no understanding of the elements of dance research.  
• Demonstrates little or no understanding of dance analysis |

### 2.8 Recommended resources for students

The essential reading for the course is the course reader. Extra research for your major essay will involve sourcing other books on your chosen era along with journal articles (try *Writings on Dance, Dance Research, Discourses on Dance, The*

**Reading List:**

**DANCE INJURY ACTION PLAN (Jan 2014)**

In the case of muscular or skeletal injury in the Dance and Webster studios, the patient should immediately attend:

Kensington Physiotherapy

Tenancy 10,

University Terraces, 17 High Street (near the IGA supermarket)

Kensington, NSW, 2033

CRICOS Provider no.: 00098G
Charges are at a reduced student rate.

- The cost of attending physiotherapy for UNSW students is $80 for an initial consultation and $65 for any follow-up consultations.
- If you have private health care you may receive a rebate for the cost of physiotherapy, depending on your level of cover.
- A physiotherapist should be able to see you within a day of sustaining your injury. It is best to phone and check for availability.
- You will receive a thorough assessment of your injury, as well as appropriate treatment, and management advice for optimal recovery.
- If further investigation is required your physiotherapist can refer you for imaging or to one of a network of sports physicians in the area.

If you cannot transport the patient to the Clinic call them for advice.

The physiotherapists can attend to minor cuts with steri-strip but report to the medical centre for major cuts:

The University Health Service
Ground floor of the Quadrangle Building
Tel: 9385 5425 for an appointment.
Medical consultations for all current students and OSHC card holders are Bulk Billed.

For fractures, dislocations, heart/lung injuries or arterial bleeds call an ambulance on 000.

All accidents and injuries must also be reported:
Hazard & Incident Reporting Form (OHS001)
http://www.hr.unsw.edu.au/ohswc/ohs/ohs_forms_checklists.html
Guidelines:

Prepared by Senior Lecturer in Dance, Dr. Erin Brannigan in consultation with Melissa Allen at Kensington

STUDIO BOOKINGS:

Rehearsal and performance spaces are available for SAM students for coursework related activities, during session time only. If you need a space outside of session please contact the Creative Practice Lab (CPL). See the Venues and Hire page for full details on each of the spaces or for information on how to hire these spaces for NON-course related activities.

When booking a space you will need to provide your student number, course code and mobile contact number. All students must adhere to the conditions of use posted in each of the spaces, see below. There is no food or drink (other than bottled water) allowed in any of the rehearsal spaces. Please leave spaces as you find them, or in better condition!

Bookings During School Hours: If your booking is for coursework and you need the space during school hours (9am-5pm), then book through the SAM school office. Contact: SAM Office - Level 3, Robert Webster Building | sam@unsw.edu.au | 9385 4856

Bookings After-Hours and Weekends - Bookings MUST be made one week in advance. If your booking is for coursework and you need a space outside of school hours then book through the CPL. Contact:

CRICOS Provider no.: 00098G
CPL Administration and Venues Coordinator, Estee Laird-Wah - estee.wah@unsw.edu.au | 9385 5684

**Prop and Costume Stores**

An eclectic range of prop and costume items are available to students for course related presentation and performance work. Student groups and industry may hire from the CPL. We do not hire for ‘fancy dress’.

Contact: CPL Designer, Paul Matthews - p.matthews@unsw.edu.au | 9385 5378

**Technical Equipment**

A range of AV presentation equipment is available for classwork presentations and performances. This includes projectors, PA systems, amplifiers, microphones, and TV screens. For cameras and other digital AV equipment see the Technical Resource Centre.

Contact: CPL Production Manager, Mark Mitchell - m.mitchell@unsw.edu.au | 0403 821 997.
